This screenshot shows the initial state of the CSS file in VS Code. The Explorer panel on the left lists the project files, including 'index.html', 'style.scss', 'main.js', and 'Untitled-2.css'. The 'Untitled-2.css' file is open in the editor, displaying a series of CSS variables and reset rules. The code includes comments for Google Fonts, HSL color mode, and various font and margin settings. The status bar at the bottom indicates the file is at line 452, column 26, using UTF-8 encoding with CRLF line endings.

This screenshot shows the continuation of the CSS file in VS Code. The Explorer panel remains the same. The 'Untitled-2.css' file is open, showing the '.section-title' and '.section-title::after' rules, followed by the '.section' rule and the start of the '.bd-grid' rule. The code defines the styling for the section title, including its position, font size, color, and margins, as well as the background color for the pseudo-element. The status bar at the bottom indicates the file is at line 452, column 26, using UTF-8 encoding with CRLF line endings.

The screenshot shows the VS Code editor with a file explorer on the left and a code editor in the center. The file explorer shows a project structure with files like index.html, style.scss, main.js, and a folder named 'Untitled-2.css'. The code editor displays CSS code for the 'FOOTER' and 'MEDIA QUERIES' sections. The 'FOOTER' section includes styles for a footer, footer title, footer social, footer icon, and footer copy. The 'MEDIA QUERIES' section includes styles for a home container and a home image. The status bar at the bottom indicates 'Ln 452, Col 26', 'Spaces: 2', 'UTF-8', 'CRLF', 'CSS', and 'Port: 5500'.
